DETAILED ACTION

Response to Amendment

1. Claims **1-22** are pending in the instant application. Claims **1-8** and **16-22** are cancelled without prejudice. The Office notes that the applicant "is not conceding that the subject matter encompassed by claims **1-22**, prior to this amendment is not patentable over the art cited by the examiner" and is expediting the allowable subject matter. The amendments to the claims are accepted and no new matter is entered.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: Please change the title from
"SIGE HETEROJUNCTION BIPOLAR TRANSISTOR (HBT) AND METHOD OF
FABRICATION"

to

-- SIGE HETEROJUNCTION BIPOLAR TRANSISTOR (HBT) --

Allowable Subject Matter

Art Unit: 2815

3. Claims **9-15** are allowed. The following is an examiner's statement of reasons for allowance: The claimed structure of claim **9** was not found in the prior art. Specifically "an emitter region formed over said base region including a *first polysilicon layer ... with a dopant having a first concentration and a second polysilicon layer ... with said dopant having a second concentration*", was not found in the prior art search. Toyoda (US 7,135,721) was the closest art found but did not teach two polysilicon layers with the claimed dopant concentration differences.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

4. The Office agrees that all issues have been resolved after final, and that the amended claims and application are ready for allowance.
